THE EFFECTIVE BUSINESS SOLUTION IN ELECTRICAL BOP

WEA Group

www.weagroup.com.au

WEA GROUP

The work ethic and 'can-do' attitude of the WEA crews was very impressive and refreshing to see. They mobilised directly from a previous project in another state and were immediately faced with several challenges on site, however, the way they went about implementing solutions to overcome the challenges in order to keep the job moving was very pleasing to see. **BEN THOMSON - YURIKA**

About WEA Group

At WEA Group, our clients are at the heart of everything we do. Our philosophy is our strong, values based culture that focuses on how we can do it better.

WEA Group is one of the most innovative and experienced contractors in the energy industry. WEA Group appreciates the unique and varying requirements of Transmission, Solar, Hydro, Bio and Wind projects. WEA Group is a true EBOP contractor with the experience, flexibility and knowledge in procurement, construction, commissioning and long-term operations.

Our employees have a complete appreciation of the exceptional challenges associated with energy projects in Australia.

These challenges are supported by WEA Group's all-encompassing experience, policies and proceedures. The company has a reputation for proficiency and dependability in delivering construction projects across Australia in all conditions

Recognised as a highly customer-focused establishment, WEA Group is completely capable of providing value solutions to meet a broad range of customer necessities.

WEA Group - Striving for best

Our Service

WEA Group takes 3 of the 4 elements of western culture that are essential to life and base the DNA of the company on them.

Water

Our Water infrastructure business protects our most valuable commodity. Our knowledge, experience and expertise in water and wastewater engineering is second to none and drives the success of all our projects.

Earth

WEA Group deliver professionally planned and executed Earthworks packages, operating across a variety of sectors and on projects of all sizes and complexity.

Air

Looking after the air we breathe is a fundamental part of the company. Working with some of Australia's leading renewable energy companies, our reputation in the renewable energy market has been established by providing a trusted service in the construction of renewable energy projects.

Zenviron had engaged WEA Group for the Lal Lal Wind Farm 33kV reticulation system installation. WEA have a solid installation crew and excellent trenching and cable installation equipment which is well suited for this type of work. I would recommend WEA for any cable installation works on other projects. Zoran Blazevic - Zenviron

What we do

We aim to employ the best people and bring thought leadership to each stage of the project lifecycle as we support our customers to plan, create and sustain.

WEA Group are proud of our safety record and that our safety culture is at the forfront off all our team members thoughts.

Safety:	Safety and health are what matter most.
People:	The people we have are the strength of our business.
Leadership:	We take ownership and lead by example at all levels.
Teamwork:	We work together and support each other to achieve success.
Client Relationships:	We have trusting relationships with our clients.
Community:	We show respect for the community, Indigenous Australians and the environment.

907,200 Hours worked in the last year LTI & Incident free

WEA Group have had a great year for our EBOP teams with the succesful completion of projects accross Wind and Solar on time and on budget.

Innovation:	Investment in plant and equipment to suit the industry.
Delivery:	Process and procedures to suit the project.
Team:	Thinking of clients and community as part of WEA Group.
Question:	Why is it done that way, what can we do better.

226,688 Meters of cable laid succesfully in the last year

WEA Group have been involved in the delivery of some of Australia's largest renewable energy projects and are proud of being the only dedicated renewable energy EBOP contractor in Australia.

325 MW:	Of solar projects delivered
685 MW:	Of wind projects delivered

1.1 GW Of renewable energy generated by assists WEA has built

WHY WORK WITH US

WEA Group value relationships and are honored that repeat business is a major part of our protfolio. The work our teams perform is to the highest quality and means our clients feel safe in knowing that we can be trusted to deliver. We treat our clients as part of the team and select our clients we work with that have the same values in safety, community, quality and respecting the environment.

We pride ourself on the feedback we recieve from our clients and listen to what they have to say, WEA Group are always “striving for best” and the only way to improve is to ensure everyone at WEA Group is working for the same goals and values.

- **Teamwork,** We are better together
- **Integrity,** We always do what is right
- **Excellence,** We strive to improve and exceed expectations
- **Respect,** We appreciate others and care about the wider communities and our planet

We approached WEA Group after a contractor failed to meet its obligations. WEA Group were quick to mobilise and start works. While the project had its difficulties with heavy rock and poor conditions, WEA Group delivered the project on time and on budget. **Grant Johnstone - CPP**
